

Group Meeting #27

Date 25 September 2015
Time 10:00 am
Location WT Meeting Room - WT103.

Attendees

Paul Lee, Sean Young, Alexis Rabadan.

Minutes Recorder

Paul Lee.

Absences

None.

Meeting Agenda

- Jason and Josh are not required for this meeting.
 - Alexis will check development progress, make suggestions.
 - Paul will demonstrate the
-

7. Approval of minutes of last meeting

- 7.1. The group is in agreement that the minutes of the last meeting are an accurate record.
-

8. Status of prior meeting arrangements

- 8.1. Alexis has sent the login info for server and contact details. He has also given the contact information of a co-worker that can assist with networking.
 - 8.2. Alexis has sent debugger code for use in Unity. Some changes need to be made to use the debugger in our application.
-

3. Discussion of Project Development

- 3.1. Alexis had sent over the debug code to show messages in app, but he had not sent over the script to run it.
 - 3.1.1. Alexis spent some time to try to script this in the application we had. He was not able to get that to work so said he would send over his working script after the meeting.
 - 3.2. We showed the application that contained the plugin to display the GPS coordinates of the user.
 - 3.2.1. He had not done any previous work on using android .jar plugins through Unity C# script and was happy with the progress.
 - 3.3. We had some trouble with display/retrieval of data from the database through the .jar plugin to Unity app.
 - 3.3.1. Alexis explained that we may have a misguided idea of what he wants from a plugin. A C# script created in Unity is essentially a plugin and we could create a set of scripts that can be easily read, accessed and changed.
 - 3.3.2. This gave us a better understanding of what we had to create for him.
-

4. Meeting Arrangements

- 4.1. Paul will continue on working on the overall GPS Plugin.
 - 4.2. Sean will continue documentation on the trello board and helping Paul.
 - 4.3. Alexis will send over the debug script for debugging inside the application at runtime.
-

5. Adjournment of Meeting

5.1. There being no other business, the meeting was adjourned at 11:00 pm.

6. Next Meeting

Date To be decided.

Time To be decided.

Location To be decided.

Jason will arrange a meeting with Roopak for some time in the near future. We will share our progress with Roopak and get his suggestions.
